25 September 1957

MEMORANDUM FOR: PROJECT DIRECTOR OF ADMINISTRATION

SUBJECT : Procedure of Handling Suggestions Made by the Pilots of the Project, with Regard to Improvements in the Aircraft, Personal Equipment, Flying Safety, and Standardization of Flying Procedures

25X1A9a

1. Reference your memorandum, SAPC-19364, dated 13 September 1957.

2. Prior to the departure of [REDACTED] the Director of Operations recognized a need for the standardization of flying techniques and the review of new requirements for our aircraft and personnel equipment. As a result of this need a Standardization and Flying Safety Board was established comprising:

25X1A9a

3. This Board was charged with the responsibility of reviewing the requirements, complaints, accident reports, flying safety aspects and standardization of procedures used within the Project. The detachments were notified of this board 12 July 1957.

4. This Board has answered queries, recommendations, and kept the detachments informed of the improvements, changes, new requirements and results of accident investigations. All Commanders have complimented the action taken to date and are highly pleased with the initiation of this board. This board will continue to provide the personnel concerned with follow-up comments and suggestions for standardization, as well as action taken with regard to recommendations made by the Project pilots.

FOR THE DEPUTY PROJECT DIRECTOR 25X1A9a

[REDACTED]
Lt. Colonel, USAF
Director of Operations
